

Woodriver Elementary Science Fair Judges

Dear Potential Science Fair Judges,

Woodriver is proud to participate in the annual Interior Alaska Science Fair. The Science Fair is an opportunity for all students to learn more about Science by investigating a student selected topic of interest and completing a project. Project entries are categorized into six major divisions: Experiment, Demonstration, Science Report, Science Collection, Invention, and Computer Coding.

Judging is based on two components, the child's display and an interview. Judges will complete a rubric for each project. The best-looking project isn't always indicative of knowledge and understanding. We want the students to have fun with their project and to share their enthusiasm and knowledge through both the interview and their display.

We need parent and community volunteers to judge the Science Fair on Thursday, February 29th, 9:30 AM to 1 PM. If you are interested in learning more about becoming a judge please complete and return the form at the bottom of this page to the office. Thank you.

Woodriver will provide food and drinks for the judges.

If you have any questions or comments, please feel free to contact us.

Sincerely,

Rob Kinder and Sarah Clark, Science Fair Coordinators
