

How to Round

Sample Problems

Round **718** to the nearest hundred.

Round **285** to the nearest ten.

Underline the number (digit) that might be rounded.

7 1 8

2 8 5

Circle the number (digit) to the right of the underlined number.

7 (1) 8

2 8 (5)

If the circled number is 0, 1, 2, 3, or 4 do NOT change the underlined number.

7 (1) 8

2 8 (5)

If the circled number is 5, 6, 7, 8, or 9 round up (add one to the underlined number).

7 (1) 8

2 9 (5)

Change the circled number to 0.

7 (0) 8

2 9 (0)

Change all the numbers to the right of the underlined number to 0.

7 (0) 0

2 9 (0)
