Birth: January 17, 1706

Death: April 17, 1790

By Anthony

# Benjamin Franklin Facts

Title: Benjamin Franklin

Author: Peter and Connie Roop

Illustrator: None

I would recommend this book because it is a great book about Benjamin Franklin and is very accurate and true to Benjamin Franklin and because it was a very well rounded and good book about Benjamin Franklin.

# Benjamin Franklin's Background

January 17, 1706, at Milk Street, Boston, Massachusetts. He was adventurous, He became an apprentice to his older brother and wanted to become a sailor.

He married Deborah Read, and had 2 kids, Sarah Franklin and Francis Franklin.

He got most of his training in printing from his older brother and co-workers. His siblings and co-workers and near the end of his life, the United States government helped him during his life

Some famous or infamous things he did was he almost got killed by Lightning, tried to kill a turkey with lightning, he was elected to the Continental Congress.

# Benjamin Franklin's Appearance

At his height he was 5'10, rounded like a swimmer with grey eyes and blond hair and he was white.

Benjamin was smart and happy, he liked to read and print newspapers, he was devoted to his job.

His ability to read and write made him a very successful printer and politician.

I admire his creativity and intelligence and his good decision making.

# Benjamin Franklin's Accomplishments

Benjamin was a very successful printer, he was an important politician to the American Revolution and made the treaty with The British in 1783, in his newspapers he suggested that the city build a fire station and make new roads.

These events are important because they helped make a better city and also helped create the USA. I admire these achievements because they were mostly good ideas and good actions

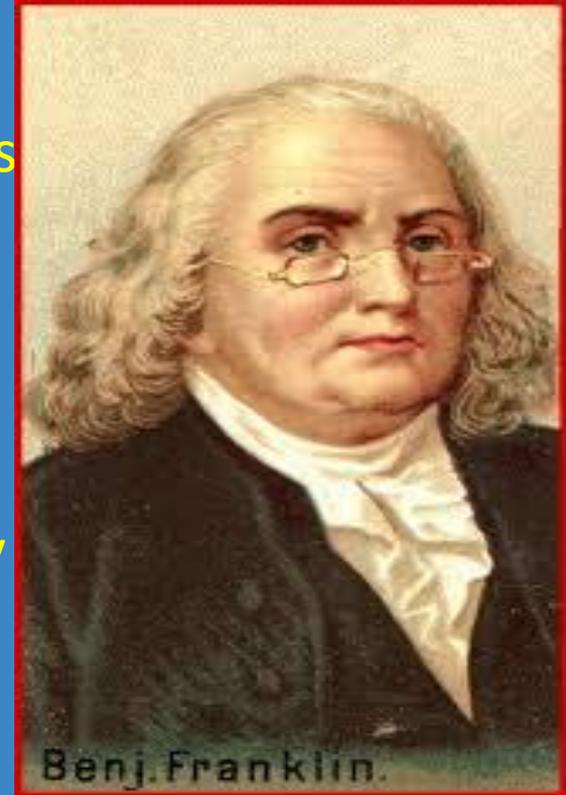

# Comparisons

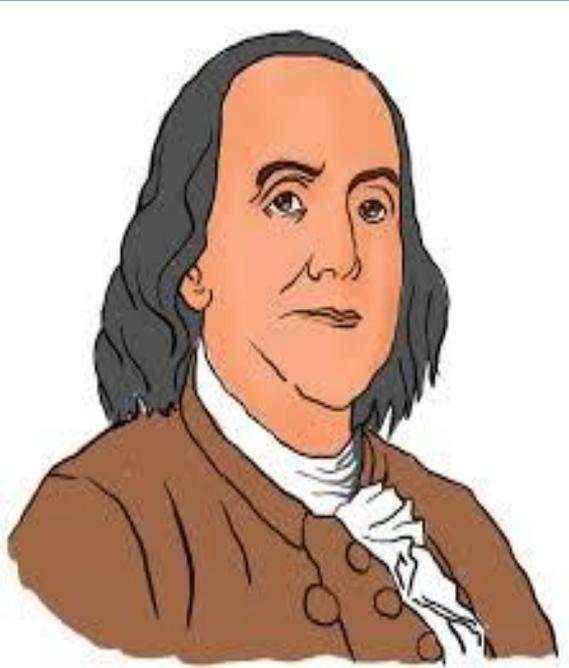

We are both Americans, We both have white skin, he was 5'9 but I am 5'4, He wears glasses and I don't

I have brown hair while he had blond hair, he had many siblings while I have none.

# Extra Credit

In his childhood he was an apprentice to his older brother, who was a printer for the newspaper, while he worked as a printer he read books and was a very good story teller for the newspaper and this made him well known in the community. His childhood helped him become a successful printer and that helped him become a politician. He was a Christian/Deist, he was an American and a male, with white skin. He bought 2 confirmed slaves but freed them later, but he was against slavery, making petitions to the British owned government of the 13 colonies and later to congress to end it. He was a scientist which was not a common job in the British owned 13 colonies of america.

# Conclusion

“Love your enemies, for they tell you your faults.” -Benjamin Franklin.

Thank You for listening and are there any questions?
